Foaming Facial Wash - oily skin

EUR22.00

How it works:

Â

Castile is predominantly made with olive oil. Even though this is a rich oil, it is non-greasy and non-comodogenic, which means that it doesn't restrict or clog the skins pores. It has also been proven to accelerate the healing process, which is thought to be due to its Vitamin E content. Olive squalene (naturally present) assists the skin's own ability to naturally regenerate and nourish itself. Because it is similar in structure to the skin's own squalene composition it enables it to be highly penetrative. These are amazing attributes to have in a facial wash, especially when combined with the effects of jojoba and wheatgerm oil. Jojoba oil is incredibly similar to the skins own sebum, it is adaptagenic. This means it is suitable for all skin types, it helps balance all skin types and associated problems. Grapeseed oil is a light, non-greasy oil with excellent astringent properties.

Our Natural facial wash is the ultimate cleanser for oily skin. Our product uses a synergistic blend of organic essential oils, blended specifically for oily skin types. Petitgrain, Lavender & Sandalwood neutralizing extracts eliminate surface oil, dirt and debris.

All Ingredients

Castile, Grapeseed Oil, Jojoba Oil, Petitgrain E.O., Lavender E.O., Sandalwood E.O.

Recommended use: Use morning and evening as part of your daily skin care regime. Synergy Skin Therapy gentle facial wash is suitable for dry, sensitive, normal and mature skin types, due to its unique balancing effects on the skin.

Instructions

Dampen face with clean warm water. Lather pea size amount between hands with warm water, then massage into the face and neck using small circular motions with your fingertips. Rinse off with clean warm water and pat dry with a clean towel.

Warnings
